Lawsuits are not for the faint of heart, but it is public record which is the only thing the SS fears and reacts to. . . negative publicity. A worthwhile investment because the SS historically settles to avoid going to trial.

Feel free to do what you wish with my email comms. Are you planning to forward to AntiPolygraph.org?. . .lol

Speaking of which, I reviewed the depositions on AntiPolygraph.org, and Ripperger perjured herself.

Watch your back because Ripperger is running her mouth about you and you have a security clearance,
