There is collusion between Security Management Division, Polygraph Division, and Inspections Division with the "1-800-Favors" and special treatment for legacy applicants and friends and family applicants. You need to have your attorney do Discovery to uncover and "follow the money trail". Do the names Mike Mullen, Dan Ciatti, Karen Nock mean anything to you?

Regarding Ripperger's perjury, I'll have to get back to you on the specifics as I do not have my notes with me at the moment.

The term "Hallway file" refers to your unofficial file being kept internally. . . All government agencies keep one on employes and applicants. Ripperger had quite a lot to say about you.
